## CHILEAN HARVEST 2016

### Region Information:

The Curico Valley has been a wine grape growing region since the 1800's. and is located about 115 miles South of Santiago. Curico has the perfect fertile soil for growing quality wine grapes. It is known for it's micro climates and the ability to grow over 30 different wine grape varieties. It's Mediterranean climate is situated between the Guaiquillo river and mountains on both the east and west sides.

### Terroir:

Sandy, clay, decomposed granite

### Varieties Available:

- Cabernet Sauvignon
- Cabernet Franc
- Carmenere
- Malbec
- Merlot
- Petite Verdot
- Pinot Noir
- Syrah
- Chardonnay
- Pinot Grigio
- Sauvignon Blanc

### Harvest Information:

We will have multiple shipments from Chile this year. The first container will arrive in early May and will arrive with the white varieties - Chardonnay, Pinot Grigio, and Sauvignon Blanc. The containers that follow will contain the red wine grapes.

We will start taking orders as soon as February 1st. If you are interested in Chilean wine grapes please contact us at [sales@juicegrape.com](mailto:sales@juicegrape.com)

### MALBEC

The Malbec grape has become increasingly popular over the past 5 years. Malbec from Chile produces a very fruit forward and complex wine. On the front of the palate you sense berry flavors, black cherry, blueberry, plum, and raspberry. On the palate there are notes of coffee, cocoa, and tobacco. Depending on the flavor profile you prefer we suggest ageing your Malbec in French, America, or Hungarian oak. This brings out the vanilla, coconut, and other toasty notes in the wine. You will create a wine that has fantastic fruit flavor, good acid, tannins, and a complex mouth feel. For the best color and extraction consider whole berry maceration.

## DID YOU KNOW?

Chile's innovative wine industry will be at this year's 2016 Vancouver TED conference!
